

OIL FILTER & CAN CRUSHERS

The better way to manage used oil filters and cans.

- Reclaim 95% of oil from used filters.
- Reduce filter and can waste volume by 75%.
- Reduce waste management costs - less waste pick - ups.

UFC550C OIL FILTER & CAN CRUSHER

4 ton force at 120 PSI.
Crushes filters and cans up to 9.8" diameter and 8" high.

UCC840C CAN CRUSHER

2 ton force at 120 PSI.
Crushes most 5 US gallon cans up to 12.6" diameter and 18.5" high.

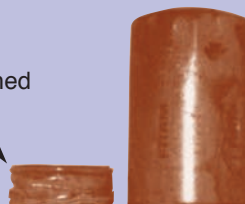

UFC850C OIL FILTER & CAN CRUSHER

7 ton force at 120 PSI.
Crushes filters and cans up to 12.6" diameter and 16.5" high.

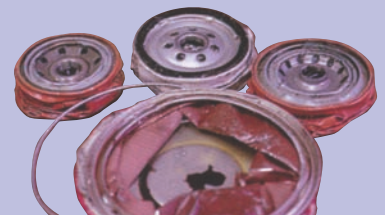

The Control Box, at top of unit.

Crushed Filter

Crushed Filters

Used oil filters and cans are crushed to as small as 2" high.

Filter and Can Crushers Minimize Waste

Easy To Use

1. Load one used oil filter or empty can into crushing compartment.
2. Close crushing compartment door.
3. Pull Crushing Lever. Oil from used filter or liquid residue from can, drains through discharge hose at back of unit to pail.

Common Features

- Crushes one oil filter or can per cycle.
- Self-lubricating.
- Unit bolts to floor for maximum safety.
- Safety door automatically locks during crushing cycle.

**Purchase or Lease.
1 year full warranty.
Extended warranty available.**
